

Verdant Peak Technologies - Benefits Documentation

Verdant Peak Technologies — Benefits Documentation

1. Overview

Verdant Peak Technologies (VPT) offers a comprehensive benefits package designed to support the health, financial security, and wellbeing of employees and their families. Benefits eligibility begins on an employee's date of joining for most programs, with a few exceptions noted below. Specific plan details may vary slightly by country of employment to comply with local regulations; this document describes the standard global framework, with country-specific addenda available on the Benefits Portal.

2. Health Insurance

VPT provides comprehensive Group Health Insurance covering the employee, spouse, and up to 3 dependent children (including newborns and legally adopted children), effective from day one of employment. The plan covers hospitalization, day-care procedures, pre- and post-hospitalization expenses (60 days prior, 90 days after), and maternity benefits up to \$6,000 per delivery, with no waiting period for maternity coverage for employees who joined VPT before conception. Employees may also enroll parents or parents-in-law under an optional Parental Health Cover, co-funded by the employee through payroll deduction. Annual open enrollment occurs each November, with new elections effective January 1; qualifying life events (marriage, birth, adoption) allow mid-year changes within 30 days of the event.

3. Dental and Vision Coverage

Dental coverage includes two free preventive cleanings per year, and reimbursement of up to \$1,500 annually for major dental procedures (crowns, root canals, orthodontics) at 80% coinsurance after a \$100 annual deductible. Vision coverage includes an annual eye exam and an allowance of \$200 every 24 months toward glasses or contact lenses. Both benefits are available to the same dependents covered under the primary health plan.

4. Life and Disability Insurance

All Regular Full-Time employees are automatically enrolled in Company-paid Group Term Life Insurance equal to 3 times their annual base salary, at no cost to the employee. Employees may purchase Supplemental Life Insurance for themselves and dependents

at group rates through payroll deduction, up to a maximum of 5 times annual salary, subject to medical underwriting for amounts above \$500,000. Short-Term Disability coverage provides 60% of base salary for up to 26 weeks in the event of a qualifying non-work-related illness or injury, while Long-Term Disability coverage provides 50% of base salary beginning after 26 weeks, potentially continuing until age 65.

5. Retirement and Savings Plans

VPT offers a Retirement Savings Plan (structured as a 401(k) in the United States, EPF/NPS in India, and equivalent local pension schemes elsewhere) with a Company match of 100% on the first 4% of employee contributions and 50% on the next 2%, for a maximum Company contribution of 5% of base salary. Employees are immediately vested in their own contributions and become fully vested in Company matching contributions after 3 years of continuous service. Financial planning webinars and one-on-one consultations with a Company-sponsored financial advisor are available free of charge twice per year.

6. Employee Stock Purchase Plan (ESPP)

Employees who have completed their probationary period may enroll in the ESPP, which allows the purchase of VPT stock through payroll deductions of 1% to 15% of base salary, at a 15% discount to the lower of the stock price at the beginning or end of each 6-month offering period. Enrollment windows open each May and November, and employees may adjust or withdraw their contribution election once per offering period.

7. Wellness Benefits

VPT reimburses up to \$600 per year for gym memberships, fitness classes, or home fitness equipment under the Wellness Reimbursement Program, submitted quarterly via the Benefits Portal. The Company also provides free access to a mental health and meditation app (subscription fully covered), and hosts an annual Wellness Week each June featuring on-site health screenings, flu shots, and wellness workshops. As noted in the HR Handbook, the Employee Assistance Program provides up to 6 free confidential counseling sessions per issue per year.

8. Family and Caregiving Benefits

Beyond Parental Leave described in the Leave Policy, VPT offers a Childcare Subsidy of up to \$300 per month per child under age 5 for employees using a licensed daycare facility, and a Backup Care Program providing up to 10 days per year of subsidized emergency backup child or elder care through a Company-partnered agency. A Fertility and Family-Building benefit reimburses up to \$10,000 lifetime for eligible fertility treatments, adoption expenses, or surrogacy-related costs.

9. Tuition and Professional Development

In addition to the \$1,500 annual Learning & Development stipend described in the HR Handbook, VPT offers a Tuition Reimbursement Program covering up to \$5,250 per year for job-related degree or certificate programs, provided the employee maintains a grade of B or equivalent and remains employed for at least 12 months following course completion (or repays a prorated portion of the reimbursement).

10. Commuter and Lifestyle Benefits

Employees in offices with available public transit may enroll in a pre-tax Commuter Benefits Program (where locally applicable) to set aside up to the IRS or local statutory limit for transit and parking expenses. VPT also provides a one-time Home Office Setup Allowance of \$500 for employees in hybrid or remote roles, and an annual \$250 “Peak Perks” lifestyle stipend that can be used flexibly toward wellness, hobbies, or personal development, redeemable through the Benefits Portal.

11. Employee Discounts

VPT employees have access to a corporate discount marketplace offering reduced pricing on electronics, travel, entertainment, and software subscriptions from partner brands, accessible through the Benefits Portal using a single sign-on link.

12. How to Enroll and Manage Benefits

New employees must complete benefits enrollment within 30 days of their start date via the Benefits Portal; failure to actively enroll within this window results in default enrollment in the base Health Insurance plan only, with other elective benefits requiring the next open enrollment period. Employees may update beneficiary designations, dependent information, and contribution levels at any time for non-plan-specific items, or during open enrollment/qualifying life events for insurance elections. Questions regarding benefits should be directed to the Total Rewards team via the “Ask Benefits” ticketing system, which targets a 2 working day response time.
